

OnBase Update for TAC

December 9, 2016

Central Document Repository Progress
and
OnBase Status Update

OnBase Desktop Client

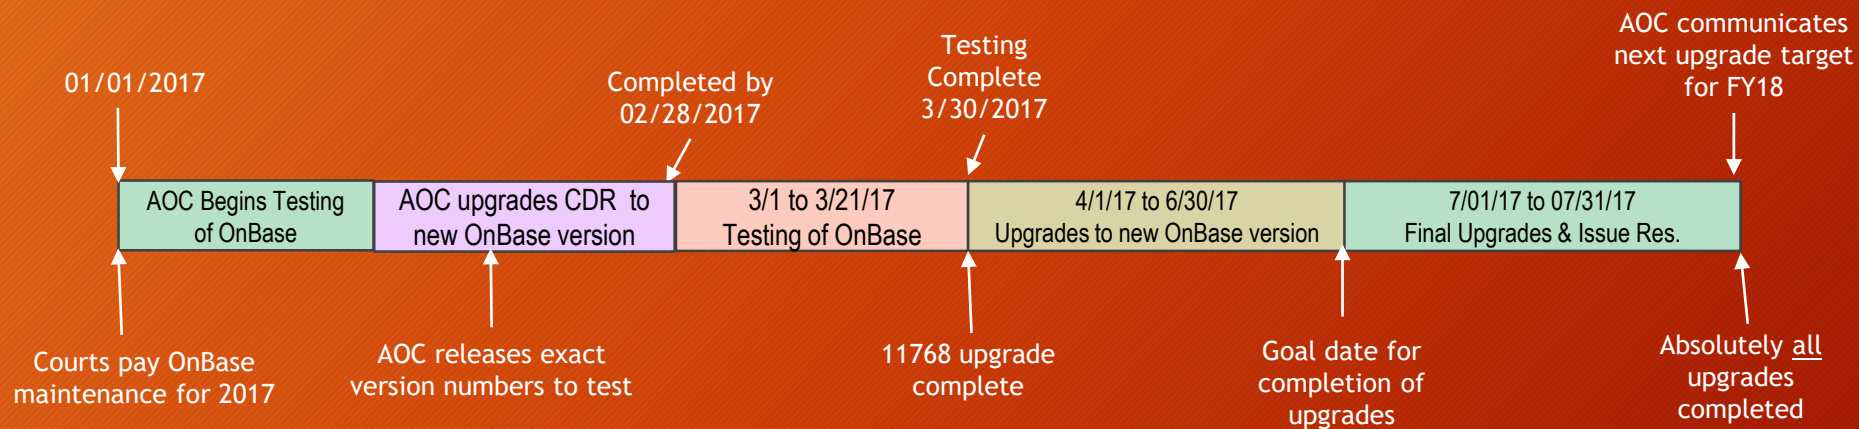

- Warning: The Desktop Client is no longer supported in OnBase 17 or newer
 - The Desktop Client is the primary method for document retrieval for AZTEC
- The AOC is developing integration with the OnBase Unity Client as a replacement
 - This will include replacing Disconnected Scanning with the Unity Client which will enable real-time scanning
 - WOB.exe re-write underway w/ DataBank for continued AZTEC support

Upgrade OnBase

- OnBase Version 17 is not scheduled to be released until “summer” 2017
 - The AOC is working with Databank and Hyland for a possible upgrade to OnBase 16 SP3
- OnBase will need to be upgraded in order to participate in any of the eCourt products
 - Contains needed DTM bug fixes and restores broken functions
 - Now tracks locked documents missing from the transfer
 - eAccess, eBench, and eFiling depend on DTM to display documents

OnBase Upgrade Timeline

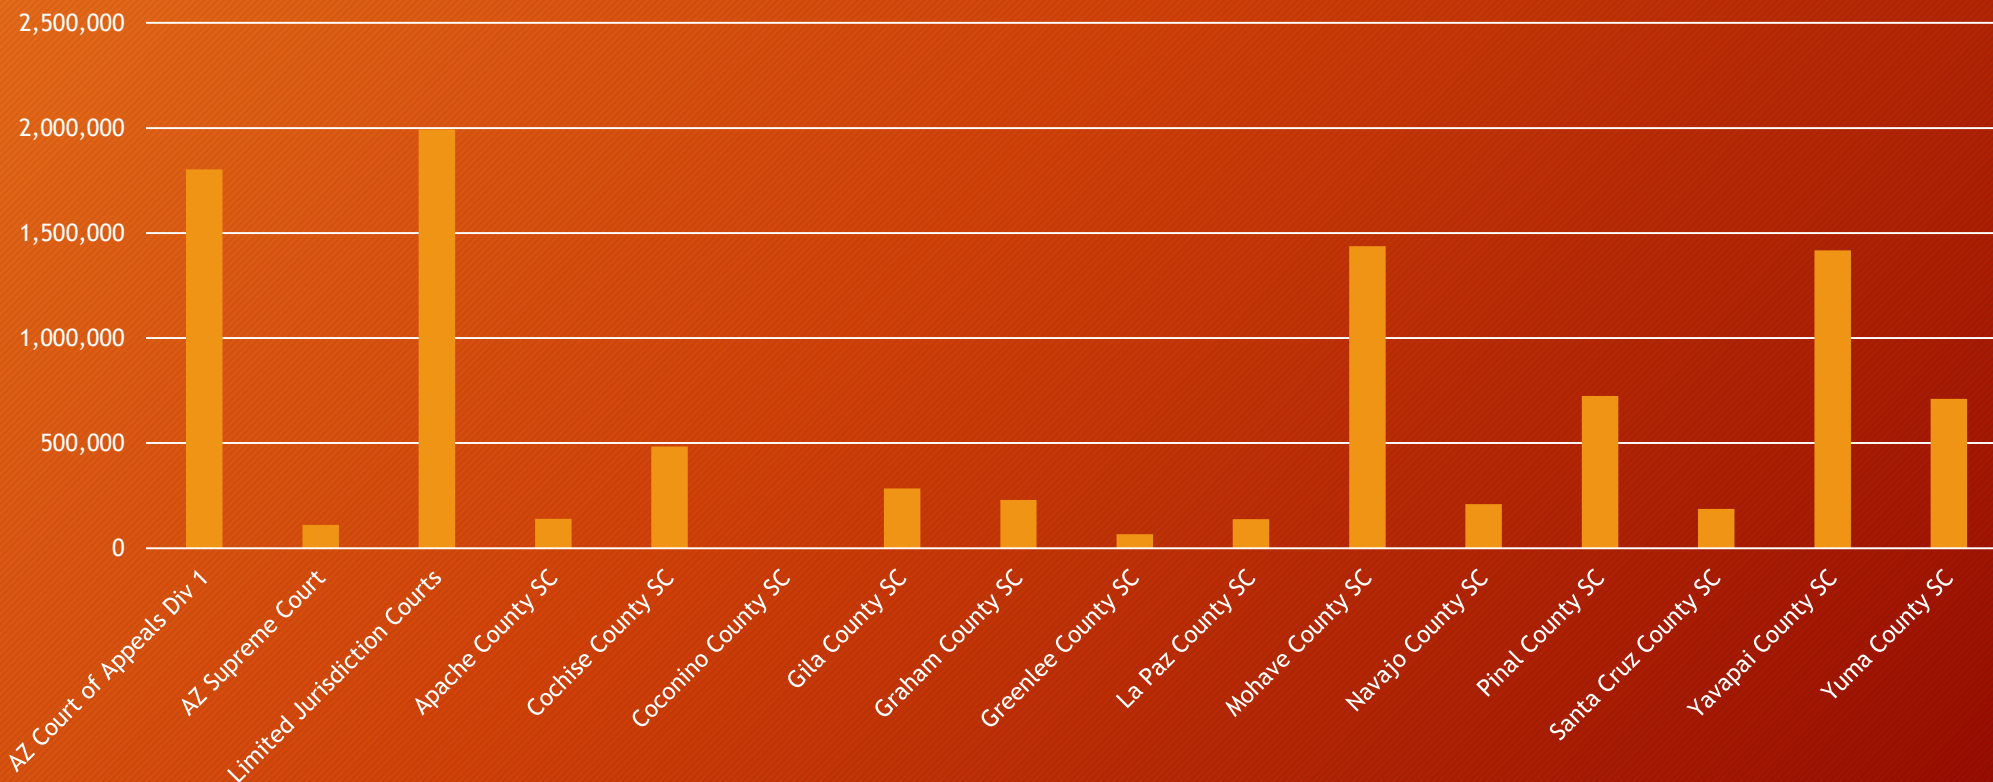

- Scope documentation is complete but replanning is now underway

Central Document Repository

- 12 of the 13 Superior Courts are contributing to the CDR

Documents Transferred

Upcoming OnBase Training

- Intro to Workflow

- February 6th through 10th (tentative)
- Location TBD (likely @ DES in central Phoenix)
- Requires 6 students minimum
- Register at <http://training.databankimx.com/event-2088222>
