**ORDER**

April 12, 2024

The Complainant alleged a superior court judge improperly dismissed his civil case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission member Denise K. Aguilar did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on April 12, 2024.

The Judge originally received the case to be heard. The defendants attorney was late responding. When she responded it only said that this case does not belong in Arizona. She had written that on two occasions. This is a trucking company. Trucking companies can be sued in any state they run in. They also have a terminal in . I am going to say with the response being late and having nothing to do with the law it should have been allowed to go to trial. The only thing that the attorney did say and could say was that i did not put the law # next to each of my complaints. Everything else is a lie and does not say anything specific because there was nothing that the attorney can say about me. I was a good person when working for this company.

That being said the judge allowed the plaintiffs to file a dismissal of court. After they were late filling the original and it did not comply with what the lawsuit was about twice, they still asked for a dismissal. The Judge have it to

them. I had to go back into court and file again. I asked for a new Judge. I was told it had to go back to the first Judge. Thats fine as long as i got a different Judge. After dropping the papers off with the judge in his box I waited. Then to my surprise the original Judge (Judge ) had declined it again. The papers that where given him specifically said I wanted a different Judge.

What makes it even harder is that as a truck driver I was held back from getting a job for almost months. The company I ended up with did everything wrong. I tried to make it work but the first truck I was given was missing 1/2 the license plate. The second truck was in the shop times and needed to go in again. I know have a trucking job that makes a person stay out for a minimum of months before going home.

The company knew I would not be home to address anything. I believe it is a game they are playing. The Judge is playing a game as well from what I see.
