**ORDER**

April 12, 2024

The Complainant alleged improper legal rulings and bias by a justice of the peace hearing a civil case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission members Denise K. Aguilar and Delia R. Neal did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on April 12, 2024.

Did not on Did not or is requested and agreed upon.  
Had to clean myself. Went on a long trip afterwards and  
at a The and I drove several hundred miles that way  
because did not replace it. Manager called and offered to refund money. That's not the  
point. Unable or unwilling techs to do the job correctly. Filed complaint with management who  
basically blew me off. Also contacted corporate office with no response as of today. I would  
never return there. This is not my first horrible experience with them. Shame on me for trying to  
have faith in a business such as

My first horrible experience with this store. On I brought in my vehicle to get  
Set up my appointment online through their system. I got  
confirmation the next day which tells me the Went in at  
noon - my confirmed appointment time and was  
package. No big deal. Got a call an hour and a half later that my was ready however, I  
did not get back to the shop until an hour after the call. When my ride pulled into the main  
parking lot, not the parking lot, I noticed my car off in the distance with its lights on. I  
went into the shop to pay and get my keys. At first, I was the only one in the shop but the  
technician was helping a customer on the phone. Once it was my turn, my keys could not be  
located. Again, not too much of a concern as it was just filed incorrectly. When I went to pay, my  
total was too low to as the system  
somehow did not communicate that portion of the request to the store, just the . No  
so I paid for my and headed off to  
my vehicle. Once I got to the area where my car was parked,

For this reason alone, I will NEVER go back to this store. If my car was stolen, would they  
replace it? Negligence on all counts. When I called into the store to let them know (I did not  
want to go in and cause a scene at this point because I was so upset), all that was mentioned to  
me was that he would "go yell and scream at the technician for doing that and if you want to  
come back into the store, I will make sure to give you a free oil change". No...not interested.  
This was unbelievable to me. Long story short, verify everything with your appointment and  
don't leave your vehicle because you don't know if it will be taken care of properly.
